WORK EXPERIENCE

- React.Js Developer, CLOUDGATE LLP, Rajkot, India****Aug 2024 - Dec 2024**
- Engineered and maintained responsive user interfaces using modern frontend technologies like **React.js**, ensuring a **seamless user experience**.
 - Translated over **15 wireframes** into fully functional web components in collaboration with **design and backend teams**, streamlining the development process to achieve a more efficient workflow.
 - Optimized application performance by implementing best practices for **rendering , state management and bundling**.
 - Worked on **cross-browser** compatibility to ensure consistent experiences across **different platforms**.

EDUCATION

- Atmiya University, Rajkot, India - B.Tech, Computer Engineering - GPA: 9****Jun 2021 - Jun 2025**

PROJECTS

- Expense Tracker App, [Link](#)****Nov 2024 - Dec 2024**
- Built a full-stack **MERN** (MongoDB, Express.js, React, Node.js) application with a **GraphQL API** for **managing personal finances, supporting 500+ transactions across 10 categories**.
 - Implemented user authentication using **Passport.js**, enabling secure login for over **1,000 users**, and developed **CRUD** operations for transactions, handling **500+ daily updates** with real-time data synchronization via **Apollo Client** for **state management**.
 - Designed a scalable data model for transactions, accommodating **10,000+ records, capturing categories, payment types, amounts, and dates, ensuring seamless handling and retrieval of large datasets** with sub-second query performance.
 - Developed a **category-wise expense breakdown feature**, generating visualized reports (e.g., Food: 25%, Transportation: 15%, Entertainment: 10%) to **help users track spending effectively**.
 - Delivered a **robust expense tracking solution**, improving **financial management** efficiency by an estimated **30%** for end-users.
- Choco E-Commerce , [Link](#)****Dec 2024 - Jan 2025**
- Designed a **Next.js-based e-commerce application** , resulting in a fully functional **online store** featuring **10 unique products**.
 - Engineered a robust backend using **Drizzle ORM** and **PostgreSQL**, ensuring **100% data consistency** and scalability to handle **500+ product listings** in the future.
 - Integrated Zustand**, reducing state management complexity by **30%**, enabling efficient scaling for additional features.
 - Enabled secure **cryptocurrency payments**, expanding payment options by **50%**, accommodating modern customer preferences.
 - Created interfaces for **warehouse, inventory, and product management**, increasing **administrative task efficiency by 35%**.
 - Successfully delivered the project on schedule, enabling the client to **launch the store 20% faster** compared to traditional development cycles.
- AI PDF Note Taker, [Link](#)****Jan 2025 Present**
- Developed an **AI-powered PDF note-taking application** using **Next.js, React, and Google Generative AI**, **reducing document analysis time by 60%**, streamlining the process of extracting actionable insights from documents.
 - Implemented features for **PDF upload, AI-driven text extraction and Q&A module** where users can **ask questions related to the PDF**, achieving an **85% accuracy rate in AI-generated responses**.
 - Optimized workflows using **Langchain** for seamless AI model integration and **Convex** for real-time data storage and retrieval, enhancing query response times by **40%**.
 - Leveraged tools such as **Google Generative AI, Lang Chain, Convex, and PayPal SDK** to deliver an interactive and scalable solution that processed over **200 PDFs weekly**.
 - Reduced manual note-taking and content exploration time by **50%**, improving productivity for **90% of users** during pilot testing.

SKILLS

- Languages****Database****Framework****Tools**
- : ReactJS, Node.JS

: MongoDB, PostgreSQL

: Next.js, Express.js

: Redis, Docker
